Chegg Inc  
3990 Freedom Cir,  
Santa Clara, CA 95054

Dear Hiring Team at Chegg,

I am applying for the remote Mathematics Expert position at Chegg.

I have extensive knowledge of undergraduate mathematics and have taught calculus classes of various levels as well as TA'd for ODE and linear algebra courses at Purdue University. I have additionally participated in outreach programs at Purdue University; particularly the MITE (Multiethnic Introduction to Engineering) program aimed at preparing high-school students for their upcoming university applications, particularly with the SAT exams; and the ABC (Academic Boot Camp) program which is aimed at preparing prospective Purdue University students for their fall courses in STEM.

Hope to hear from you soon,

Carlos Salinas
