Dear HR Department at IDEA Public Schools,

I am writing to apply for the role of Statistician at IDEA. As a recent graduate from Purdue University's rigorous Graduate Program in Mathematics, I have the knowledge necessary to provide insights

I am a firm believer that access to good education is the surest path to a successful life. I am aware of the sheer amount of opportunities open to college graduates and I want as many members of my community to benefit from that. As for my qualifications: I am a recent graduate from Purdue University's rigorous Graduate Program in Mathematics. I have the knowledge necessary to extract statistical insights from your data and the technological know-how. I'm well versed in the usage of Python and R for data analysis and proficient in SQL queries, subqueries, joins, filtering, insertion, and the list goes on. I am confident in my ability to perform this role.

I have complete trust in my ability to meet your demands. I look forward to speaking with you to discuss my qualifications. Please do not hesitate to contact me.

Sincerely,
Carlos Salinas
