DHR Health  
5501 S McColl Rd,  
Edinburg, TX 78539

Dear HR Team at DHR Health,

I am applying for the position of Dat Analyst at DHR Health. I am a recent graduate from Purdue University's rigorous graduate program in mathematics and am looking to put my abilities to good use. Although my concentration was primarily in theoretical mathematics I have developed an excellent foundation in data analysis and machine learning and I believe I can bring value to your business beyond what is expected. In particular, I have ample experience in programming languages and frameworks as well as databases and database management that will allow me to create a good pipeline for your analysis—a pipeline which will no doubt improve over classic Excel sheet maneuvers.

Do not hesitate to contact me. We can talk about my experience, my vision for the job, any potential pitfalls.

Sincerely,  
Carlos Salinas
